This collection we have looked back to the archives, designing vintage inspired products that allow us to be more present in our space. 'Archive' is all about creating nostalgic and sacred moments with beautiful objects, that evoke warmth and happiness. A throwback to more simple times and a way to escape the noise.

venus clam dish + incense burner

In Roman mythology, Venus was the goddess of love, beauty and fertility, among other things. Be a goddess and burn your incense in a spectacular holder as an act of self care and love. This is also beautiful as a dish, or turned over as a sculptural element or paperweight.
