

FLAXFIELD LINEN

2021 / 2022 CATALOGUE

A photograph of a bedroom. In the center is a bed with a dark headboard, covered in white linens. Two white pillows with blue piping are at the head of the bed. To the right, a nightstand holds a white dome-shaped lamp with a lit candle inside. The bed is on a light-colored, textured rug. The background wall is dark wood paneling.

Designers of Fine Homewares

In 1983 a young mother with a passion for design and meticulous sewing skills created a range of boutique, handcrafted linen for her family that met her high standards of quality, performance and aesthetic appeal.

Today we are a mother and daughter team designing and creating a unique selection of beautiful home furnishings which reflect our dedication to quality without compromise. We only design and create items that we want in our own homes.

Unlike most soft furnishings that are sourced readymade, we personally hand design every aspect of every item we sell. This personal attention to detail makes our linen individually unique in a market full of mass production. Using only the best natural fibre ensures the highest quality and sustainability, to stand the test of time. We still personally use linen that we crafted over 10 years ago and it feels more luxurious with every passing day.

We have recently expanded our soft furnishings to include a selection of woven throws loomed from the finest undyed Peruvian Alpaca fibre. Woven in Peru, our ultra-soft and luxurious Alpaca throws are available in a fine twill or boucle weave.

Manhattan is the latest addition to our staple bedding collections. Inspired by the art deco architecture of New York City and made from 100% cotton sateen, with bold coloured borders and tonal satin stitching, Manhattan is a statement piece for any guest or master bedroom.

We are a small family-owned business focusing on what matters most; timeless style that adds a touch of luxury to every home, without compromise.

We trust you'll love our products as much as we do.
