

**micro**Cloud

Luxury bedding for 5-star hotels. And you.

Drift off to sleep  
in luxury with  
microCloud  
bedding.

## About microCloud

When co-founders, Robert Weil and Tony Blanch created microCloud in 2004, they never dreamt it would grow to become the most sought after luxury hotel bedding brand in the country. Decades of experience in bedding design and textiles led them to develop a unique hypoallergenic fibre blend with more loft, better shape retention, and unbeatable comfort that today provides the most luxurious sleep for millions of Australians.

## Hotel Quality

Trusted by over 60 four and five-star hotels and more than 500 short-stay properties, microCloud has a reputation for delivering premium comfort and quality.

- ⊙ Anti-Microbial
- ⊙ Dust Mite Resistant
- ⊙ Non-Irritant

Treated with HealthGuard™ for ultimate protection from allergies and dust mites

Filled with microCloud, the revolutionary ultrafine fibre-fill designed to provide the softness and luxurious comfort of pure goose down.

PILLOWS

## Mattress Topper

---

Give your mattress a luxury transformation and take pressure off your body with cloud-like cushioning.

## Hotel Pillow

Rest your head on the perfect blend of softness and support with our unique fibre-filled pillows.

## Testimonials

---

*“As Australia’s No.1 Luxury Accommodation and Romantic Getaway, ensuring a great night’s sleep for guests is our top priority. So when it comes to bedding, we wouldn’t dream of using anything but microCloud. Thank you for providing truly exceptional bedding and outstanding service.”*

David and Mani Penman,  
Owners **Clifftop at Hepburn**

*“It’s vital to us that our guests experience their best sleep possible, that’s why we use microCloud products exclusively across our extensive portfolio of luxury boutique hotels. Guests consistently ask where they can purchase the bedding - a testament to the quality and comfort of this premium range.”*

Paul Fischman,  
CEO **8Hotels**
